PROFESSIONAL SUMMARY

Versatile and detail-oriented Web Developer with a strong foundation in building modern, responsive, and high-performance full-stack web applications. Expert in React, Next.js, and JavaScript, paired with robust back-end capabilities. A focused problem solver with a user-centric mindset, passionate about architecting structured, clean, and interactive digital interfaces that optimize scalability and user engagement.

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT) <i>Ghanshyamdas Saraf College, Mumbai • CGPA: 7.8/10</i>	2022 – 2025
Higher Secondary Certificate (HSC) <i>Durgadevi Saraf College, Mumbai • Percentage: 66%</i>	2021 – 2022
Secondary School Certificate (SSC) <i>Our Lady of Nazareth High School, Mumbai • Percentage: 77%</i>	2019 – 2020

CERTIFICATIONS

- Complete Web Development Course – Udemy (12/2025)
- React Crash Course: From Zero to Hero – Udemy (07/2025)

TECHNICAL SKILLS

Core Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Framer Motion

Backend & Data: Node.js, Express, PostgreSQL, MongoDB, Convex, Supabase, REST APIs

Tools & Libraries: Git & GitHub, Vercel, Clerk Auth, Cloudinary, OpenAI Integration, Firecrawl Scraping, Recharts, Zod

Soft Skills & Traits: Fast Learner, Team Work, Problem Solving, Analytical Thinking, Ability to Work Under Pressure

Languages: English, Hindi, Marathi

WORK EXPERIENCE

Web Developer – Destino Infotech Pvt Ltd (Full-time) <i>Mumbai, Maharashtra, India (On-site)</i>	March 2026 – Present
• Architect and maintain responsive frontend interfaces for modern web applications using React and Next.js, ensuring cross-browser capability and fluid user experiences. • Seamlessly integrate robust backend services and RESTful APIs to deliver dynamic data rendering and optimized performance metrics. • Collaborate closely with UI/UX designers and product managers to translate complex wireframes into production-ready, interactive layouts. • Implement custom form tracking and communications integrations using modern libraries like EmailJS.	

PROJECTS

ZenAi (AI-Tools Multi-Suite Platform)

- Developed a full-stack multi-tool AI productivity platform leveraging a PERN stack (PostgreSQL, Express, React, Node.js) architecture.
- Integrated advanced OpenAI APIs for intelligent text generation and built automated background removal pipelines utilizing Cloudinary handlers.

- Secured user sessions and application routes implementing Clerk Authentication modules.

ZenTrack (Real-Time Price Tracker)

- Engineered an automated price tracking dashboard designed to monitor online product assets in real-time.
- Built the frontend and server actions using Next.js and Supabase, utilizing Firecrawl web scraping agents to crawl target product endpoints.
- Visualized historical data fluctuations and predictive price trends using custom Recharts components.

ZenAura (Real-Time Event Management / Discovery Platform)

- Built a full-stack event management platform enabling seamless event creation, real-time discovery, and QR-based ticket validation.
- Constructed the structural frontend architecture with Next.js and Tailwind CSS, leveraging Convex for real-time document store updates and reactive streaming.

ZenResume (AI-Assisted & ATS-Friendly Resume Builder)

- Developed a responsive resume creation application offering granular visual customization controls and an intuitive, user-centric interface.
- Configured scalable Node.js backend controllers backed by MongoDB to persist formatted text arrays and layout configurations securely.

ZenTask (Animated Project Management Tool)

- Built a rapid workspace management layout emphasizing performance, structured state management, and strict schema runtime validation via Zod.
- Implemented interactive team layouts, dynamic responsive sidebars, and fluid workspace card transitions using React Router and Tailwind CSS.

Premium SaaS Landing Platforms (Dark & Light Variations)

- Engineered conversion-focused, highly visual landing layout systems optimized for modern web performance metrics.
- Integrated complex scroll-linked micro-interactions, layout entry frames, and rich UI feedback states utilizing Framer Motion.
